

Welcome to the Improved Smart Data Grid!

NEW : Pangaea 3.0

From late July 2009, you will be greeted with a pleasant surprise when you next log into Pangaea.

Introducing the Improved Smart Data Grid.

A breakthrough in managing your orders online. The Improved Smart Data Grid blends excellence in user friendliness with advanced software technology.

This leap in design and functionality ensures that it is easier and faster to create and edit your orders in Pangaea.

The key BENEFITS of the Improved Smart Data Grid are -

1. Easier to use

Simply click in a cell to create or edit, just like in Excel.

2. Faster to update

Enter your order information directly into the Improved Smart Data Grid and click "SAVE".

3. Simpler for Agents to maintain your orders

Get Agents to complete their tasks without having to log into Pangaea. Orders can be exported to Excel, emailed to your Agent, updated by the Agent, emailed back and uploaded into Pangaea!

The key FEATURES of the Improved Smart Data Grid are -

1. Smart Edit

Simply click in a cell to create or edit, just like in Excel.

2. Order Export & Import

Export orders, make your changes, update multiple orders at once and import changes into Pangaea.

3. Customizable Views

Select multiple fields that you want to display and update. Drag & Drop columns to arrange the views.
